Responses to the Department's Sixth Set of Information Requests

---

**Request No. DTE 6-45 (Common):**

Refer to the Company's response to AG 1-72. Describe in greater detail the adjustments made to the unbilled revenue calculation for large customer accounts billed at month-end and for weather.

**Response:**

As described in DTE 6-41, Industrial customers are read at the end of the month, so only a small percentage of the associated revenue is factored into Fitchburg's unbilled revenue calculation.

Weather normalization is factored into forecasted monthly revenue, so no adjustments related to weather were made to unbilled revenue in 2001.
